The Mayor and the Beard of Aldermen.

The proceedings of the Councils show that the question between the executive and legislative branches of our Municipal government is still a vezed one. It is now the fifth month of Mr. Magnuder's administration, and not a single officer of the Corporation has received a cent of pay according since the 30th of last June. Many are suffering: for, just at the commencement of winter the need of money is most pressing. The cause of difficulty is a "provise" attached to the appropriation bill, that no person shall be entitled to demand pay for services until he shall have been confirmed by the Board of Aldermen. The Mayor vetced the bill more than a month ago, and sent it back to the Board whence it originated; and, in default of not passing over the veto by the requisite majority, the bill died a violent death.

A new bill was then introduced in the Board of Common Council, which slightly differs from its predecessor, but to which the obnazious "proviso" has also in the course of legislation been attached. On this last bill some difference of opinion exists between the two Boards in regard to amendments striking out appropriations to pay certain salaries, but there is no disagreement in relation to the proviso. Two committees of conference have been appointed. The first representation for the proviso. Two committees of conference have been appointed. the Mayor and the Board of Aldermen

amendments striking out appropriations to pay certain salaries, but there is no disagreement in relation to the proviso. Two committees of conference have been appointed. The first reported that they could come to no amicable understanding. The report of the second committee will be made, probably, next Monday evening. If the pending difficulty be adjusted, the bill will be passed, nevertheless, with the proviso. It is likely that the bill will be allowed to go through as sent to the Board of Aldermen from the Board of Common Council, so that it may be sent to the May or in a form not absolutely identical with the former one. Howsoever that may be, it is very certain that the proviso must sgain be taken into consideration by the Mayor.

Whether the "sober second thought" will suggest an adjudication more favorable to the office-holders we do not know, and certainly shall not undertake to predict. We must be allowed to say, however, that the reasons set forth in the late veto do not appear to our fellow citiseus generally potent enough to justify a resort to that extreme measure. According to the terms of the charter, the consent of the Board of Aldermen is as imperatively necessary to a valid appointment as the nomination by the Mayor. The Mayor has no right to expect any "reasons" to be offered by the Board in defence of their disapprobatory course; nor has the Board of Aldermen any authority to demand from the Mayor any "reasons" for his persistency. They are co-ordinate and independent powers in the municipality, and should exercise mutual forbearance.

Although there is no partisan harmony between

mutual forbearance.

Although there is no partisan harmony between the majority of the Board of Aldermen and the Mayor, no one can, with justice, allege anything factious on the part of that majority, in their consideration of his honor's nominations. Out of all the nominees laid before the Beard of Aldermen by the Mayor, but three or our remain in abeyance. The Mayor appears to stake the destiny of his administration upon forcing the Board of Aldermen into consenting to every one of the nominations in question.

nations in question.

Now, such pertinarity may be in accordance with the charter, but it is certainly detrimental to the welfare of the city. The Board of Aldermen have, they believe, good and sufficient reasons for differing with the Mayor in regard to certain nominations. They are not bound to disclose these reasons, and were they as plenty as blackberries, cannot be expected to yield one of them on compulsion.

pulsion.

Why should the Mayor persist in re-nominating these gentlemen? Is it possible that there are no other persons on his list of friends capable of discharging the required duties? If these three or four individuals were exclusively possessed of the qualifications necessary for the offices to which they have been so often nominated, the Board of Aldermen would merit censure for their repeated rejections; but such an alternative has never been declared. It is certainly a sorry compliment

rejections; but such an alternative has never been declared. It is certainly a sorry compliment to the numerous party which placed the Mayor in power, to impute all the official talents to but three or four members of it.

It is unkind, too, to the many incumbents already exactlein official functions to starve them on account of some half a dozen. But our sympathy on this score might as well not be expressed; for, if not suspected to be hypocritical, it would, perhaps, be pronounced supererogatory. We leave this topic, for the present, with expressing our regret that the municipal affairs of our city should be kept in such an embarrassed condition, when the point contested could so readily be adjusted by the Mayor.

CONTEMPLATED IMPROVEMENTS.—We understand CONTENTLATED INFROVEMENTS.—We understand it to be likely that a recommendation will be made to Congress by the proper Executive department to extend the City Hall on the north side in order to farnish accommodations not now enjoyed. The want of a room for the sessions of the Criminal Court is a striking deficiency. In point of fact that court has now nowhere to sit, and is beholden either to the City Councils for the use of the Council chamber—not a well-adapted room for the purpose by any means—or must use the new modelled room occupied by the Circuit Court, which will hardly be approved of.

First Wand.—The First Ward Council meets on Monday night next, at 7 p'clock, to elect officers and to attend to business of importance.—Sam ain't dead, though they say they are going to

INDEPENDENT HOSE.—This company give a ball at Island Hall in December next.

Marion Cluz.—The first grand ball of this club takes place on Monday evening next, at Temperance Hall. Arrangements have been made to make every one happy and merry who will honor them on that occasion.

FAIR AT INLAND HALL.—We are pleased to learn that the ladies of Gursuch Chapel are doing well at their fair in Island Hall. There were three hundred present last night. Among them we noticed the scholars of Mrs. Guiton, who teaches a school in the basement of the Hall. They are doing well—but they wish to do better, and they will do better. They will continue the fair next week, when, we doubt not, their labor of love will be bountifully rewarded. Young men, this is the place to spend your money.

EUROPEAN ACKNOWLEDGMENT OF AMURICAN MERIT.—We understand that the King of Deparark has conferred upon our distinguished countryman, Lieut. M. F. Maury, the cross of a knight of the Order of Danuebrog, as a mark of consideration for the eminent services he has rendered in that department of useful science to which he has deroted his life and talents.

Baural Rapz.—A man by the name of Pond, a resident of Ridgeway, Orleans county, was assessed for rape on complaint of his step daughter, a little girl 14 years of ago, and also for assault and battery with intent to count a rape on another step-daughter only 11 years old. The examination developed a case of the basest groveling to passion on the part of the accused. Pond is now in jail a waiting the action of the Grand Jury.—Rochester American.

LLAGHER'S SUNRISE AIR-Tight, It is only necessary to say, that after very many years of experience, and being fully conversant with all of the various kinds of Stoves which have been invented on the down-draft principle, that I have taken advantage of every well-known improvement that has from time to time been made, particularly in reference to the formation and construction of the flues, which are always necessary to be large, and I have fully applied every improvement and combined them all in the "Sunrise Air-Tight Cooking Blove." This Stove is made very heavy, and is a good substantial article; I have made them extra heavy in all the parts where long experience has proved it to be important, and I can assure my customers that I have spared neither pains nor expense in getting it up; and it will not be excelled by any stove now known of a similar character; I am convinced that it will at once become a standard Stove.

I have fully tried them in every way, with WOOD and COAL, and strongly recommend them to the public. They operate in the most satisfactory manner.

For example: If ticket No. 11,250 draws the \$100,000 prize, those tickets numbered 11,248, 11,249, 11,251, and 11,252 will each be entitled to \$800, and so on according to the above scheme.

If ticket No. 1 should be drawn, the approximations would be 2, 3, 29,999, and \$0,000.

If ticket No. 20,000 should be drawn, the approximations would be 29,998, 29,999, 1, and 2.

If ticket No. 2 or 29,999 should be drawn, the approximations will be on the same principle.

PLAN OF THE LOTTERY.

PLAN OF THE LOTTERY.

In the above scheme there are 30,000 tickets, numbered from 1 to 30,000.

There are 222 full prizes and 888 approximations, making in all 1,110 prizes.

The numbers from 1 to 30,000 corresponding with the numbers on the tickets, printed on apparate stips of paper, are rolled up and encircled with small in tubes and placed in a glass wheel.

The amounts of the different 222 full prizes, similarly printed and encircled are placed in another wheel. After revolving the wheels, a number is drawn from the wheel of numbers, and at the same time a prize is drawn from the other wheel by boys who are blindfolded.

The number and the prize drawn out are opened

The drawing is then printed, and, after comparison, the Commissioner certifies to its correctness.

Prizes payable forty days after the drawing, in full, without deduction.

Whole Tickets \$20 Halves, \$10 Quarters, \$5.
